The following definitions are those officially established for the reporting of enrollment data to the Council on Higher Education. Data in the report are based on net headcount and credit hour data, or the total number of students enrolled as of the last day to add a course for credit and the number of credit hours for which these students are registered on that date. This date is the one established by each institution as the official cut-off date.

Formula for calculating full-time equivalent enrollment: Undergraduate student credit hours divided by 15 + Graduate student credit hours divided by 12 + Law student credit hours divided by 14 + Headcount of other first-professional students + Headcount of post doctoral students + Headcount of doctoral dissertation students + Headcount of residents and interns.

Note: The method of calculating law FTE has been changed from headcount to credit hours divided by 14. The FTE has been recalculated for all years shown in this table.
